I am suing you after Treaty. Treaty is not
conspiracy. My nuclear is set in Russia. My allies are
exception until United States Government, CIA, United States
Police, and the 45 states comply. Keep off my extended
family and my businesses. Face the wall when coincidentally.
I will hit the United States Government like I am educating
\$36 trillion for conspiring my exception.

And insisting on having the right to remove
and hit any conspiracy building or center field and
places that look like it.

Yours sincerely,
Dotun David Fakeye
